

Art House Party 24-27th February

Sue and I had been searching for an ideal venue for our Art House Party concept but when we first stepped through the front door of Tone Dale House we knew without doubt that this was our home. It has not failed us.

The house, its history, atmosphere, unpretentious and entirely comfortable design, and furnishings and decoration which is utterly beautiful without 'decor', have totally charmed our guests.

Beautiful art works have been made of architectural features, cosy corners and gorgeous gardens through the wonderful large windows. We have had sunshine, hailstones, and now snow settling and the house has remained warm and inviting.

There has been a lot of laughter in the house these last few days - we feel Thomas and Sarah would have approved -

we have already planned our next party and our guests looked forward to it with enormous pleasure.

Thank you to the owners and staff of Tone Dale House for this lovely place
